ABOUT US

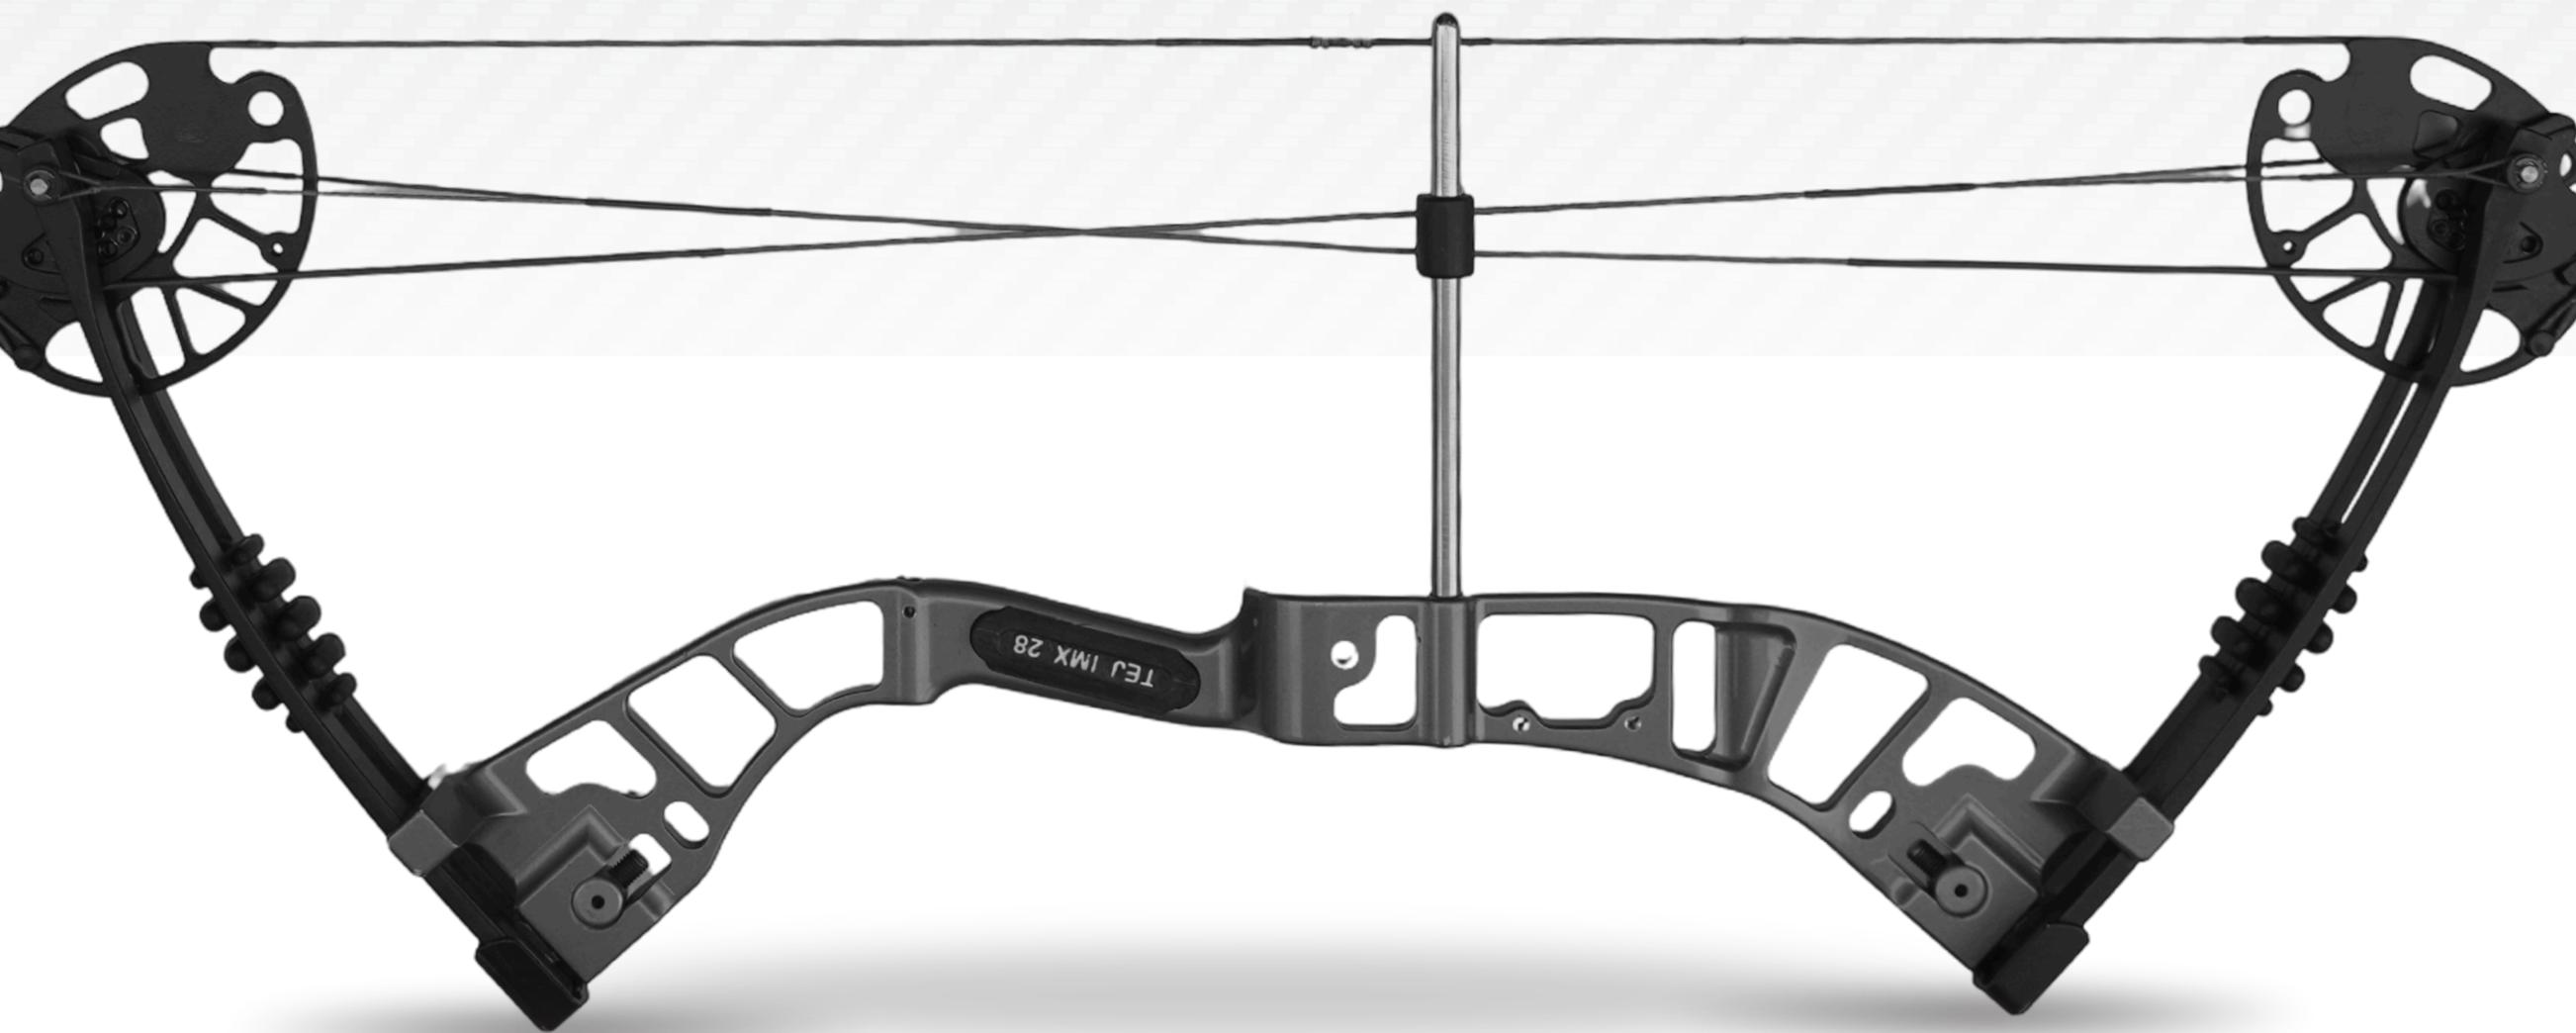

At Imaxx Sports, we are dedicated to revolutionize the archery experience globally. We set out to create professional-grade archery equipment that is affordable, accessible, and serviceable for archers of all age groups.

Today, we proudly present our range of products, meticulously designed and precisely manufactured to meet and exceed the demands of target archery. Our compound bows, thumb releasers, arrow rests, and compound sights are engineered for exceptional durability and precision, empowering every archer to achieve their full potential and conquer their dreams.

IMX TEJ 28

YOUR FIRST TRUE BOW.

Designed specifically for the future champion. Nothing but the best. With an ATA of 28", Tej will keep you shooting for a long time to come. Short Draw length Cams, finally a kids bow that is fast, arrow speeds of upto 287 FPS. A Riser that optimizes balance based on the archer, lowering the center of gravity geometrically equals a more stable bow. Consistent 'pre-load to load' limb ratios, shot after shot, these limbs perform. Strings made from the best material available, BCY strings, no creep, no peep twist. Tune once !

SPECIFICATIONS

Fiery Red Glory Green

IMX VISHWA 37

THE SMOOTH SHOOTER.

A smooth draw cycle and a refined mechanism ensures consistency shot after shot. While most bows concentrate on speed, IMX VISHWA 37 concentrates on forgiveness. At an axle to axle of 37", and a brace height of 8", it just weighs 4.2 lbs. You concentrate on the shot while our bows do the rest.

SPECIFICATIONS

AXEL TO AXEL	37"
BRACE HEIGHT	8"
DRAW LENGTHS	25-30.5"
DRAW WEIGHTS	50,60 LBS
LET OFF	70%
